

**Understanding Subtraction:
Number Line and Hundreds Chart**

Objective: Practice subtracting numbers using number lines and hundreds charts.

Name _____ Date _____ Time _____

You can use a number line or a hundreds chart to help you solve subtraction problems. For either, start on the first number in the subtraction sentence. Then count back the amount of the number being subtracted. Where you end up is the answer.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

Find the difference in the following subtraction problems.

1. $8 - 2 = \underline{\quad}$	4. $9 - 1 = \underline{\quad}$	7. $5 - 3 = \underline{\quad}$	10. $7 - 4 = \underline{\quad}$
2. $10 - 6 = \underline{\quad}$	5. $11 - 9 = \underline{\quad}$	8. $15 - 5 = \underline{\quad}$	11. $26 - 15 = \underline{\quad}$
3. $24 - 15 = \underline{\quad}$	6. $66 - 5 = \underline{\quad}$	9. $82 - 5 = \underline{\quad}$	12. $94 - 6 = \underline{\quad}$

**Understanding Subtraction:
Number Line and Hundreds Chart**

13. At the beginning of the school year, Mr. Yamashita had 42 students in his algebra class. 8 students have moved away. How many students does Mr. Yamashita have?

14. There were 80 points possible on a history test. Abda missed 13 points. How many points did he earn on the test?

15. Brooke drives a snowplow. Today she is responsible for plowing 57 miles of roads. She has plowed 24 miles of her route so far. How many miles does she have left to plow?

16. Today is Chloe's birthday. She has a cake with 9 candles on it, 1 candle for each year of her life. On her first try Chloe blows out 7 candles. How many candles are left burning?

17. During his shift at work, Gordon must restock jars of spaghetti sauce. The shelf holds 65 jars total and he has already stocked 38 jars. How many jars of sauce are left for Gordon to stock?

18. Bianca is driving to her aunt's house, which is 92 miles away. She has traveled 55 miles so far. How much farther must she travel?

19. A shoe store is having a big sale. A running shoe that sells for \$75 will be \$20 off. How much will the running shoe cost during the sale?

20. Varenka is in the middle of a 30-day bike trip to raise money for cancer. She has already been biking for 17 days. How many days are left in the bike trip?
